

# Re-Ignite the world

Hello my diverse shiny Diamonds and Zebras.

Thank you for your cooperation and thank you for your contribution even in this crisis.

I'm still very much alive.

First, I would like to show my deepest concern and condolences to the victims of COVID-19 and I pray for the recovery of the health and daily life of all those who have been affected by the virus.

I do not want to say “turn this crisis into an opportunity” while many people are struggling and hurting. As they say, “Our destiny is not written for us, but by us.”

That is why as a public institution, Diamond Electric Holdings Group must survive these difficult times to help people and companies when they are suffering.

We must pursue and achieve our mission by not only surviving, but by also fulfilling our obligations to the society in which we live.

Now comes the hard part, but my team and I are committed, and we have set forth a new vision.

We have committed ourselves to “Re-Ignite Diamond” We have adjusted our business model to survive in the new normal with the corona virus. We will fight to the end and our ‘Re-Ignited’ mid-term management strategy, DSA2021, will allow us to achieve success

**Thank you.**
